---

PROFESSIONAL SUMMARY

Frontend Developer specializing in React, Next.js, and TypeScript with experience shipping scalable, production-ready web applications. Skilled in building authentication flows, admin dashboards, design-system components, and data-intensive UIs. Recently architected a full-stack workspace app with Kanban, Calendar, and Timeline views. Focused on clean code, performance, and seamless collaboration with backend teams.

TECHNICAL SKILLS

Frontend Core: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, SCSS, shadcn/ui, Responsive Design, HTML5, CSS3

State & Data Fetching: TanStack Query, SWR, Context API, Axios, REST APIs

Backend & Auth: Nest.js, Node.js, Express.js, Prisma, PostgreSQL, MongoDB, JWT, NextAuth.js

Tools & Workflow: Git & GitHub, Docker, Figma, Postman, VS Code, Agile / Scrum, Vercel

---

WORK EXPERIENCE

Frontend Developer Intern — Part Software Group, Mashhad, Iran Jul 2024 – Jan 2025

- Developed and shipped production-ready features for a customer management platform in an Agile team
- Built 15+ reusable UI components and dynamic, validated forms to accelerate feature delivery
- Integrated REST APIs with optimized client-side fetching, caching, and error handling
- Implemented authentication workflows, form validation, and role-aware UI states
- Collaborated daily with backend developers and designers via Git, code review, and Figma to deliver fully responsive interfaces

---

SELECTED PROJECTS

TaskLine — Workspace for Planning, Organizing & Tracking Work

Next.js • TypeScript • Tailwind CSS • shadcn/ui • TanStack Query • dnd-kit • Nest.js • Prisma • PostgreSQL • Docker • JWT
GitHub: https://github.com/elyaallahyari/TaskLine , Live: https://taskline-elya.vercel.app

- Architected a full-stack monorepo (web/ Next.js + api/ Nest.js) with PostgreSQL and Prisma ORM, Dockerized for local development
- Built interactive Kanban boards with drag-and-drop for cards and lists using dnd-kit with optimistic UI updates
- Developed a month Calendar view for due dates and a Timeline view for visualizing task start to due ranges
- Implemented secure JWT authentication, public landing + login/register flows, and a dashboard with boards and upcoming deadlines
- Designed task CRUD with priority, dates, and status management powered by TanStack Query for fast, cached data fetching

TechnoLife Ecommerce Platform

Next.js • React • Tailwind CSS • NextAuth.js • SWR
GitHub: https://github.com/elyaallahyari/Technolife

- Built a full-featured ecommerce frontend inspired by TechnoLife with SSR and SEO-friendly product pages
- Implemented secure authentication and protected admin dashboard routes with NextAuth.js
- Developed a reusable design system with Tailwind CSS for product cards, filters, cart, and checkout workflows
- Integrated REST APIs for products, users, and categories with SWR caching and revalidation

Online Education Platform (Coursera-like)

React • JavaScript • Node.js • Express.js • MongoDB • JWT • Ollama
GitHub: https://github.com/elyaallahyari/Online-Education-Platform

- Developed a full-stack learning platform with course browsing, instructor profiles, cart, and student dashboard
- Built JWT-based auth with role-based access control for students and admins
- Created an admin dashboard with analytics for users, courses, and enrollment trends

- Integrated a local AI chat assistant with Ollama to answer course-related questions
- Designed and consumed RESTful APIs connecting React frontend to Express/MongoDB backend

---

EDUCATION

B.Sc. in Computer Engineering — Sadjad University of Technology, Mashhad, Iran
2020 – 2024
